HUMAN DIGNITY

We act according to our duties as humans and with human dignity in consideration, according to our privileges and opportunities.

CIVIL SEARESCUE

...exists since a long time. All seafarers know this and would wish to be rescued themselves if they were in distress at sea. We know that civil sea rescue is not a consistent or sufficient solution to the problem.

DISTRESS AT SEA

The idea of making a crossing, in an unseaworthy boat, being in peril, to capsize or to lose your own life at sea, leaves us speechless.

PEOPLE ON THE MOVE

From the perspective of the people on the move, the risk to make the journey is the better choice, compared to all they leave behind. We respect their decisions.

ACT!

We don't judge,
we act!

DONATIONS

To finance our sea rescues we need your support. Donations are invested in ongoing costs to maintain and operate the ship and rescue equipment. We all work on voluntary basis.
